

BLOCK PARTY

This race is special--the City of Camden lets us parade our cars right through the town and throws a big block party to celebrate Lemons coming to town. You get to hang around in the square playing Hero Driver for the admiring locals. (What do they know?)

The tech/BS process for this race is a little bit different. Your car and at least one team member goes through safety tech at the track just like normal, but then you bring the car down to Camden for BS inspection. Here's how it works:

1. From 12-4pm on Friday, standard Tech Inspection will take place at Carolina Motorsports Park. (Tech times will be posted on the event page by the end of the week.)

2. When tech is over, put your car back on the trailer, and bring it straight down Hwy. 521 to the staging area at 336 Broad St., Camden SC. Or, if it has lights, registration, and insurance, just drive it--at the speed limit. Note: There will be a road closure starting at 5pm that will block the main access to the staging area--there will be a detour after that, but try to arrive before 5.

3. Unload your Lemons car--be ready to roll by 5:45pm (late cars will not be able to leave the staging area).

4. At 6:00pm, a police escort will lead all the Lemons cars through downtown Camden to the BS Inspection and display area right in the heart of downtown.

5. From 6-9pm, your cars will be BS judged while you enjoy the music and food. There are no early departures--you cannot drive your Lemons car on the street without a police escort unless it has lights and is fully street registered and insured.

6. At 9pm, the police escort will lead the Lemons cars back to the staging area.

Finally, if you do bring your own food and drinks to the block party, please note that **glass bottles are not allowed**. Food and drink will also be available for sale.
